## Harrisville Harbor, MI

### Harbor Features

- Located on the west shore of Lake Huron, 20 miles north of Oscoda and 30 miles south of Alpena.
- Authorization: River & Harbor Act of 2 Mar 1945.
- Shallow Draft recreational harbor.
- Project depth between 10 - 12 feet.
- Approximately 3,000 feet of maintained Federal channel.
- More than 2,600 feet of breakwaters.
- Dredged material is placed along the beach as beach nourishment.
- Major stakeholders include the Michigan DNR, the City of Harrisville, Beyers Charter Service, and Blue Bird Charter Service.

### Project Needs

- Requires periodic maintenance dredging on a three to five year cycle of approximately 20,000 cubic yards.
- Navigation structures are primarily maintained by Government floating plant.

### Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

### Transportation Importance

- This project serves as an important Harbor of Refuge as well as charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
